

EDUCATION

MA Communication & New Media , City University of Hong Kong	GPA: 3.51/4.30	2023 – 2024
- Stream: Media Data Analytics - Coursework: Media Data Analytics (A), Research Methods for Communication & New Media (A)		
BA Advertising , Lanzhou University(Project 985)	Average Score: 88/100	2015 – 2019
- Awards: Academic Scholarship		

SELECTED ANALYTICAL PROJECTS

RED/Xiaohongshu Content Performance Analysis
- Collected, cleaned and analysed public RED/Xiaohongshu post data using Python and Excel, structuring engagement metrics including likes, saves and comments for comparative analysis. - Analysed high-engagement content and headline patterns to identify recurring features associated with stronger audience response and opportunities for content optimisation. - Designed an A/B testing framework to compare original and AI-generated headline variants and evaluate content optimisation hypotheses.
Media Sentiment & Audience Insight Analysis
- Collected and structured 20,000+ public comments from seven international media outlets using Python (Pandas), Selenium and Excel, extracting unstructured web data for analysis. - Cleaned noisy text data by removing duplicate or irrelevant fields, corrupted characters and invalid records, improving data quality before analysis. - Analysed sentiment and recurring discussion themes to compare audience response patterns across media sources, translating findings into visual reports and structured insights.

PROFESSIONAL EXPERIENCE

Freelance Research Consultant	12/2024 – Present
- Supported research and project work by structuring requirements, conducting research and developing analytical approaches for different project needs. - Analysed and structured project data using Excel, identifying patterns and translating findings into visual summaries and practical recommendations. - Managed multiple projects with different requirements and deadlines, communicating project needs and feedback, reviewing outputs and identifying areas for improvement.	
Fenbi Education , Verbal Reasoning Instructor	06/2021 – 06/2023
- Managed large-scale online programmes across multiple groups, coordinating delivery and responding to recurring operational and learner issues. - Analysed recurring learner feedback and performance patterns to identify common issues and improve content and delivery processes.	
Taiping Internet 4A Advertising Agency , Planning Intern	02/2018 – 05/2018
- Conducted market and competitor research for FMCG, beauty and consumer brands, analysing competitor positioning, communication approaches and market trends. - Synthesised findings into presentation materials and research-driven recommendations to support campaign and communication planning.
